SUMMARY

I am an enthusiastic and highly motivated BCA first-year student with a strong foundation in programming and problem-solving, complemented by a certification in Core Java. I possess excellent analytical skills, a keen eye for detail, and a proactive approach to learning and personal development. My experiences have instilled in me a strong sense of leadership, teamwork, and effective communication, which I have demonstrated through academic projects and extracurricular activities.

Driven by a passion for technology, I am seeking an entry-level role or internship that allows me to apply and expand my technical expertise in a dynamic and challenging environment. I am particularly interested in opportunities that involve software development, database management, and front-end or back-end programming. My goal is to make meaningful contributions to a team while continuing to grow and develop as a professional in the field of computer science.

With a solid grasp of Core Java concepts and hands-on experience in creating user-friendly interfaces, such as a responsive login page using Java Swing and MySQL, I am eager to take on new challenges, adapt to cutting-edge technologies, and deliver innovative solutions that align with organizational objectives.

EDUCATION

CITY VOCATIONAL PUBLIC SCHOOL
Completed 10th from CBSE Board and got 71.17%
2021-2022

Completed 12th from CBSE Board and got 67.2%
2023-2024
VIDYA INSTITUTE OF CREATIVE TEACHING
Bachelor of Computer Application
(PURSUING)

PROJECTS

Responsive Calculator Application Developed a responsive calculator using the Swing package in Java. This application supports basic arithmetic operations and features an intuitive, user-friendly interface. Designed to enhance Java GUI skills and understand event-driven programming principles.

Responsive Login Page Created a responsive login page using Java Swing and MySQL. This project demonstrates integration between front-end design and back-end database, ensuring secure user authentication and data management. Enhanced skills in GUI development and database connectivity.
